Subject: RE: North Pole Refinery

Hi Ann

We have not scheduled the Regional Decision Team yet. We are still evaluating the possibility of a Formal State Deferral for the site. This needs to be determined first as it will be a major component of the discussion at the RDT meeting.

When we do have the RDT I think it would be helpful to have DEC give a presentation on your past, current, and future actions at the site.

Subject: North Pole Refinery

Hello Brandon and Elizabeth-

I am emailing to see if there has been any progress with North Pole Refinery site? Do you have a date when your Regional Decision Team will meet? Do you need any more information from us?

We are taking steps towards enforcement with the companies if they back away from their commitment to supply clean water until cleanup is complete, as they have suggested might occur at the end of 2013. We want to stay closely aligned with you throughout this process. Please let me know if you have any questions.

Thank you.
Hope things are well in Seattle,
Ann
